The Brand Image Assessment of Locally Manufactured Fans: Survey Report

S. EHTESHAM ALI
College of Management Sciences
PAF-Karachi Institutes of Economics and Technology
ehtesham@pafkiet.edu.pk

Brand image creation and its differentiation are major marketing tools for brand building and maintenance. Here we are presenting brand image of different fans sold in the local market of Karachi. The study is based on Youn & Rubicam model. The determinants of Keller’s model as illustrated in previous issues were Awareness, Usage, Judgment, Performance and Imagery. Comparatively, the determinants of Young & Rubicam model of brand image are as follows.

- Brand Differentiation
- Brand Relevance
- Brand Esteem
- Brand Knowledge

Methodology

Based on the Y&R model’s determinants a close-ended questionnaire on a scale of five to one was developed and was administrated to 120 respondents. Respondents were the electronic dealers/vendors at Abdullah Haroon Road, Rashid Minhas Road and Aisha Manzil (F.B.Area). According to an estimate about 272 major retailers and small vendors are located in these areas. The survey was conducted during the third week of January 2008.

Conceptual definitions of the determinants used for developing the questionnaire is presenting below.

a) **Brand Differentiation:**

Brand differentiation distinguishes the brand form other brands and the perceived distinctiveness of the brand form the basis for customer choice.

b) **Relevance:**

This is the personal appropriateness of the brand to consumers and the perceived usefulness of the brand and its ability to meets consumer’s needs. It therefore provides an indicator for a brand’s market penetration.
c) **Esteem:**

It is the extent to which the brand commands the respect of customers. Esteem measures the degree to which the target audience feel good about the brand.

d) **Knowledge:**

This is the depth of a customer's understanding and experience of the brand.
